

Engerica, Hospital

Taking away your right, you are the thing I cannot relate about
I know I shouldnt but I wanna stay
Insane, its got me holding my brain
And I have nothing to say, but now I found I wanna, gotta break away

Im in hospital
Im in hospital
Im in hospital
I think I better write a letter
Im in hospital
Im in hospital
Im in hospital
The sooner I get out the better

Taking away you like, cant I admit that I
Havnt you really liked, I got away, I found the perfect day to say
That you are holding my brain and that I havnt complained
'Cause I got too many things that I wanna say

Im in hospital
Im in hospital
Im in hospital
I think I better write a letter
Im in hospital
Im in hospital
Im in hospital
The sooner I get out the better

I am a writer, I like to write things
I write it on paper and computer screens
You are nothing like me, but im just like you
When were together theres nothing better I can say or do

Im in hospital
Im in hospital
Im in hospital
I think I better write a letter
Im in hospital
Im in hospital
Im in hospital
The sooner I get out the better
