

Engerica, Nobody's Saviour

I'm not him he's not me
We don't get along I hate his sympathy
And the fights go on for hours

Into the night you're left alone
Hold onto you and my arms grow
And I'd love to see you try
A million ways to get what you need
A thousand more to break what you don't see though
So shut up you don't wanna see me come out

I don't believe you when you can
And my heart falls for my lovely man
So shut up just shut up you don't wanna see me come out

I don't wanna be someone's saviour
I don't wanna be someone's saviour
Why would you wanna be someone's saviour?

This is the end my beautiful friend
I tumble dry the cleanest of weeds
And it all just proves too much for me
So get out your forks for Ida

Rest assured I'm just killing time
I don't find anything but what I find is mine, here's mine
So shut up just shut up you don't wanna see me come out

I don't wanna be someone's saviour
I don't wanna be someone's saviour
Why would you wanna be someone's saviour?

And I'm burning in today
To a whiter shade of grey

Why that's just a lot of noise!
