

Engine Down, Control Group

this seems like the perfect spot
slowing down claim this lot
a right still held by a breather
a right still held

take notice left and right
front of you will be main sight
you sit and claim yourself leader
you sit and claim

now here goes time
sing your ghost line

straight ahead, what was last said
it takes time to view it as seconds
it meant more to live in a silence
it meant more

stable as you want to be
just dont move from your seat
dont worry youll be excused
to move around with more to lose
