

# Engine, I Don't Need

Supercharged you're superheated  
Everything your life has needed  
You make your own decision  
Carving out your soul no savior  
And the lovely way you cum  
And call it love  
I don't need to know  
I don't need  
Suicide you're superseded  
Farther than you knew you could be  
Everything you never needed  
Makes my soul bleed out  
And the lovely way you cum  
And call it love  
I don't need to know  
I don't need  
You, you're never me  
You're always the same  
You're never wrong
