Engineers, Let's Just See

I'm dropping out of time
Blown where the wind goes
There's nothing i won't do

There's nothing i won't say
Whether we win or lose
Don't drop a single line

Let's just see how far we can go
Let's just see how far it is

Tried to reverse my pride
All those many miles home
There's nowhere i can't leave

There's nowhere i can't leave
Don't wait to hear the news
No way that i can stay

Let's just see how far we can go
Let's just see how far it is

Let's just see how far we can go
Let's just see how far it is

[Reprise]

Let's just see how far it is
Let's just see how far we can go

Let's just see how far we can go
Let's just see how far it is
