

# Engineers, Waved On

Standing still  
But you've had your day  
Had the face  
But you won't stay

Slowed down, weighed down  
Right into me  
It's not right  
Waved on, helped on  
Right into you  
Goodbye

Read your mind  
But you have your needs  
Hopeless times  
But you are so pleased

Slowed down, weighed down  
Right into me  
It's not right  
Waved on, helped on  
Right into you  
Goodbye
