

English Dogs, Cranked Up Really High

[Originally By Slaughter And The Dogs]

Gamble my life away A real bum boozer

Made love on dope Just a pig skin loser

Looked around at this joint

A for a living, there was no point

Cranked up really high [2x]

All ideas, I'm shaking my fists

Had a million thoughts yeah to slit my wrists

Hallucination in my dream

I gotta leave gotta leave this scene

Cranked up really high [2x]

Getting high, on glue and cocaine

Jabbing things into my vein

A lucifer lord, a holding my hand

Pushing pills to a rock and roll band

Cranked up really high [2x]
