

Enigma, Following The Sun

Following the sun, to find the one
Who's giving you the wings to fly
Following the sun, the golden one
Losing sense for space and time

Can you feel the waves of life
(Can you) hear the sigh of love
Do you believe in it ?

Following the sun, just for the one
Till you'll find the door you thought
Following the sun, like everyone
Searching for a sign of hope

Have a look up to the sky
See the billion stars above
Cos (maybe) on one of them
You'll spend your further life
