

Enigma, Sitting On The Moon

(Michael Cretu)

I'm sitting on the moon
Watching planet blue, hello
Looking all around
Rotating without sound, where are you?
Where are you? I'm sitting on the moon
Where are you? I am missing you

I came from very far
A little unknown star, hello
I don't know what to do
It's so cold and blue, without you
Where are you? I'm sitting on the moon
Where are you? I am missing you
