

Enlaved, A Long Time Ago

Hymns were sung
In the times when our people still were proud in the long gone past
A long time ago
Then came the disease
The disease from south
Deception and false knowledge
Infected our minds
Survival of the fittest was forgotten
But still it didn't disappear
Beneath the layers of a thousand years of deception
Burns the ancients northern thoughts
Fight! Don't let your powers disappear
Our sunset shall also be our dawn
They burned our temples
They killed our men
We shall take back
What once were ours
Fight! Deny not your mind
Our sunset shall also be our dawn
We shall once again sing
Hymns from ancient times
Like we did in those days
A long time ago
