

# Enochian Crescent, De Siatris Od Teloch

Come bringers of sickness and death  
Ogiodi, Iopgna, Atoglo and Rmlaon  
I invoke thee evil angels  
Come forth to vomit thy grief

Gah iad oi as momar  
Spread thy (leathery) wings over the stars  
For I summon thee with blood  
And by the power of the black Craa

Gah de teloch od qting  
Evil angels weltering in sin  
Come and spread thy vile semen  
From thy loins to mortal wombs

...De siatris od teloch  
...Of venomous evil beings  
...Of bitches' labor screams  
...De siatris od teloch  
From the unclean mortal wombs  
Rise the cities of tombs  
...De siatris od teloch  
...Of venomous evil beings
