

Ensign, Fade Into Years

Silent for so long
In a world that turned to gray
No truth or voiced opinion
As our youth gets stripped away
Days fade into years
Have we lost the will to try
Trapped within the system
And a life that passed us by
It time that we, WE take it back
The spirit of youth, the will to fight
It time that we, WE take it back
What been silent
One voice defiant
The few who have the power must be wrested from their hands
Destroy the cowards, destroy their master plan
Spark the revolution, is the flame within your heart
The time has come to break the chains
And take back what is ours
It time that we, WE take it back
The spirit of youth, the will to fight
It time that we, WE take it back
What been silent
One voice defiant
Silent for so long
In a world that turned to gray
From the ash comes something more
A growing move to change
The time has come to rise above
One voice defiant
