

# Ensign, For The Record

A million miles from nowhere  
My faith shattered, ego bruised  
I shut my eyes and hope it all goes away  
But I return again I come back  
To the ones who care enough  
Put faith in us  
And help us struggle on  
Through these days  
Wee had so many questions  
Learned so many  
Learned so many lessons  
Come full circle and never reached an end  
The days we felt like giving up  
Like no one cared except for us  
Thanks to those who helped us see it trough  
Knocked down and shut out once again  
Push past the hard times, walk that fine line  
Until we see you at the end  
Taken in and given hope  
You let us know wee not alone  
You helped us see wee doing something right  
Through these days  
Wee had so many questions  
Learned so many  
Learned so many lessons  
Come full circle and never reached an end  
The days we felt like giving up  
Like no one cared except for us  
Thanks to those who helped us see it trough  
Thanks to those who helped us see it trough  
Through the days uncertainties  
You were always there for me  
Il never forget what you have done  
Through the days uncertainties  
Thanks to those who stood by me  
Il never forget what you have done
