

# Enter Shikari, Bloodshot

(You're going under)

Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
Manipulate and hypnotise  
Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
(3, 2, 1, sleep)

Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
Manipulate and hypnotise  
Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
(3, 2, 1) Hypnotise

They say follow your heart, which is bad advice  
When it's been broken in two, now it's compromised  
I've lost sight of what is real  
And now you're going under

My eyes are bloodshot (they're bloodshot)  
And I've seen it all before  
This film, it won't stop (it won't stop)  
And through your lens the world is an eyesore

Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
Manipulate and hypnotise  
Hypnotised, I'm so hypnotised, I'm so hypnotised, I'm so  
(3, 2, 1) Hypnotise

Oh god I can't remove all these filters  
There in my field of vision  
Now it's compromised  
I've lost sight of what is real

Oh, it's right there, before your eyes  
For all to see, the greatest of lies  
Have you noticed I'm a hypnotist?  
Have you noticed that you're going under?

My eyes are bloodshot (bloodshot)  
And I've seen it all before  
This film, it won't stop (won't stop)  
And through your lens the world is an eyesore

I can hear the echoes, gliding over black holes  
I can see the future, I can hear you calling out  
My eyes are bloodshot (bloodshot)  
And through your lens the world is an eyesore

My eyes are bloodshot, are bloodshot  
I don't wanna lose everything we got  
This film, it won't stop, it won't stop
