

Enter Shikari, (pls) set me on fire

Please set me on fire
Waiting for your signal
Waiting for a sign
Looking upward
I wait for the divine
(Won't you come down?)
(Won't you come down) and reify yourself?
Be my fire lily
On the blackened ground
In the city
On a quiet night
You can hear us
Set ourselves alight
Oh let me transcend
And be a flicker in your eyes
Wait for the spark, I'm no good at goodbyes
I wanna be ash in the atmosphere
Please set me on fire, set me on fire
Can you strike a match, make me disappear?
Please set me on fire, set me on fire
I'm sick of being broken
I'm sick of being bruised
I'm a quarry
Deserted and disused
(Won't you come down?)
(Won't you come down) and clear my state of mind?
Be my excavator
And tell me what you find
In the city
On a quiet night
You can hear us
Set ourselves alight
Oh let me transcend
And be a flicker in your eyes
Wait for the spark
Please set me on fire
Please set me on fire
I wanna be ash in the atmosphere
Please set me on fire, set me on fire
Can you strike a match, make me disappear?
Please set me on fire, set me on fire
I wanna be ash in the atmosphere
(Set me on fire, set me on fire)
(Please set me on fire) Can you strike a match, make me disappear?
(Set me on fire, set me on fire)
