

Enter The Haggis, Another Round

Train moves on another town
whisky's gone another round
whisky's gone
eagle flies overhead
sun will rise sun will set
sun will rise

fee fie foe diddle eh
never get to heaven if the devil's on his way
fee fie foe diddle um
buy another round if the devil don't come

i was born on the road
had to crawl to save my soul
had to crawl
devil hides at every turn
gotta roll so I don't burn
gotta roll

gotta find a place to rest
I've been east and i've been west
I've been down

round on the house if the devil don't come.
