

# Entombed, Night For Day

You want the guilty to be punished  
You want to hang them dead  
The road is paved with good intentions  
And hell lie straight ahead

I've got night for day  
I will find my own way  
I've got night for day

I've got things to say  
I will say them my way  
I got night for day

There will never be  
They will never see  
I will have it my way  
I will have night for day

You're out to make this world  
A better place  
For you and yours  
You're a believer but you and the lord  
Don't always bet the same horse

You want the guilt to be punished  
You want the hungry to be fed  
The road is paved with good intentions  
And hell is straight ahead

Night for day
