## Entwine, Refill My Soul

Way far beyond Inside of me Where I hide to be alone For my beloved Sometimes I need my space Please try to get along (with me)

Fill my whole life With your heart of gold You're my suicide The sweetest of them all

Soften my fall Thru' all these fears When I try to get along You're my beloved In your embrace I'll fall There I'm safe and not alone

Fill my whole life
With your heart of gold
You're my suicide
The sweetest of them all

Fill my whole life With your heart of gold You're my suicide The sweetest of them all

Fill my whole life With your heart of gold You're my suicide The sweetest of them all

(fill my whole life) (you're my suicide)
