## Enuff Z'Nuff, Stoned

Hi-gh Hi-gh

World of thoughts it's an endless space And sometimes even underground Helpless in the human race And hopeless when the sun goes down

If you give me a load If you give me it all I promise the world I can make it One thing I know If you leave me alone I'm stoned

Hi-gh

All around temptation calling to me Calls me by my name Darling tasting your sweet apples More temptating than cocaine

If you give me a load If you give me it all I promise the world I can make it One thing I know If you leave me alone I'm stoned

(Guitar solo)

People all around me seem to bluff to get me On the thing Hope my darling you could save Take me home I'll be a king

If you give me a load If you give me it all I promise the world I can make it One thing I know If you leave me alone I'm stoned

If you give me a load If you give me it all I promise the world I can make it One thing I know If you leave me alone I'm stoned

(Guitar solo)

Stoned Stoned

Hi-gh
