

Ephemera, Come Around

Here is my plan
I will send - you to the moon and back again
You shall bring - all the things - you collect back to me

Build a ship - for a trip
Around the world to give me diamonds and pearls
You are ring - around my finger
Go out and get me pretty flowers in the winter

Come around, come around and round and
Come around and I may give the world to you

We have each other - So tell no other
About this perfect cooperation that we have
Get in the closet - and I will lock it
I want to keep you as a secret for a while

Come around, come around and round
Come around and I may give the world to you

Come around, come, come around and
Come around and I may give the world to you

To you
I may give the - world - to you
I may give the - world
Come come, come around
Come around and round
Come around and I may give the world to you
