

# Epica, Chasing The Dragon

Free my mind  
Heal my scars  
Erase the past  
Dark days to forget  
And memories to last  
In my heart

"Free me now"

Make me forget  
And forgive  
There's no use  
To go on and live  
Show me a way  
To the sun  
"□"  
Heal my scars"

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Don't deny your fears  
So let them go and fade into light  
Give up the fight here

Let my eyes take in  
The beauty that's here  
That's left on this earth  
My ears long to hear  
A melody  
"

Give me sight"

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Don't deny your fears  
So let them go and fade into light  
Give up the fight here

Poison is slowly seeping through my veins  
Stealing the only dignity in me

I pick them up and let them fall  
To cause your pain and hit them all

One more life to live is what I want

I'll take the joy away from them  
See to it, they will all be damned

One more chance to heal what I have harmed

The dragon is wreaking havoc in my brain  
Plays my emotion a never-ending game

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Don't deny your fears  
So let them go and fade into light  
Give up the fight here

One more life to live for me

I want the night just to colour the day  
The morning to chase all my nightmares away  
Don't you deny that we're all human beings  
We all have our flaws that can make us obscene

### Obscene

Give me what I want  
Give me what I need right now  
That's what I want  
That's what I need, get it !  
"

"Dolendo novit mortalis vitam"

Tell me what I want  
Tell me what I need right now  
That's what I want  
That's all I need, cure me  
"

"Dolendo discit mori mortalis"

### Losers

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Don't deny your fears  
So let them go and fade into light  
Give up the fight here
