

# Epica, Chasing The Dragon (Radio)

Free my mind  
Heal my scars  
Erase the past  
Dark days to forget  
And memories to last  
In my heart

Free me now

Make me forget  
And forgive  
There's no use  
To go on and live  
Show me a way  
To the sun

Heal my scars

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Dont deny your fears  
So let them go and fade into light  
Give up the fight here

Let my eyes take in  
The beauty that's here  
Thats left on this earth  
My ears long to hear  
A melody

Give me sight

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Dont deny your fears  
So let them go and fade into light  
Give up the fight here

Poison is slowly seeping through my veins  
Stealing the only dignity in me

Nothing will be forever gone  
Memories will stay and find their way  
What goes around will come around  
Dont deny your fears  
So let them go and fade into light  
Give up the fight
