

Epoxies, Everything Looks Beautiful On Video

I don't want you to touch me
Don't try to help, you'll only make it worse
Don't tell me it will be okay,
Nothing's gonna be okay,
And anyway, it doesn't matter
I'm going to turn my TV on
'Cause everything looks beautiful on video

No point in talking now
I'm gonna have to escape by cathode ray
My eyes don't see the world at all
My ears don't hear the things you say
I wanna turn to light
I know that is where I belong
Electrify the airwaves, I'm on video

And if you need me, switch me on
I'm always right behind the screen
I'm beautiful forever now
I'm living 30 minute dreams

And if you want me, switch me on
I'm living right beyond the screen
The only place I feel at home
I am your 30 minute dream

Oh, you can never touch me
Don't even hope you'll only want too much
I know that you can look away
I know that I can keep in touch
And when you dim the light
You know I won't be gone for long
I will live forever here on video

Electrify the airwaves, I'm on video
You're so cruel to ever look away

And if you need me, switch me on
I'm always right behind the screen
I'm beautiful forever now
I'm living 30 minute dreams

And if you want me, switch me on
I'm living right beyond the screen
The only place I feel at home
I am your 30 minute dream

Somebody will love me here on video
I will live forever here on video
Everything looks beautiful on video
You're so cruel to make me look away
You're so cruel to make me look away
