

# Equinox Ov The Gods, On The Threshold

Sorrow and grief  
Alone i walk  
Across fields  
Of crimson flowers  
Frozen in time  
This eternity is mine  
From my wounds  
I won't recover

Night-time tears  
In silence i see the world pass by  
I watch new fears  
From the pits of my soul they arise

Broken and torn  
My soul is forlorn  
On this endless plain  
Of tombs and ashes  
Every tear i have cried  
is marked with a stone  
My emotions are buried  
Deep in the soil

I bury my ashes  
My earthly remains  
Silent i weep  
Dark gods whisper my name  
Hell awaits  
Alone i stand outside its gate  
Let me now in  
Let me enter my dark kingdom come

And now the darkness  
Surrounds my lonely soul  
As i lived i now die  
All alone  
I reap the fruits  
From the seed i once sowed  
The grapes of oblivion  
Delight my soul

I vanish in the darkness  
On this gloomy plain i fade away  
I leave a life in sadness  
In this realm of shadows i'd rather stay
