

# Era, Don't You Forget

Mom's sick. She says she can't get up. My little brother's getting hungry. I must go to the village to  
Sure, Corney, I'll help you  
I'll always feel good when you with me  
You're my friend, Corney  
Are you always gonna be there when I grow up? Are you?  
Cross my heart

Don't you forget about me?  
Don't you forget about me?  
We were soft and young  
In a world of innocence

Don't you forget about me?  
Don't you forget our dreams?  
Now you've gone away  
Only emptiness remains
