

Erann Drori, When You Hold Me

How can I tell you
When there's so much to say
Darling, where, where should I start
And where should I end
I know, you know this feeling
I know you understand
Finding the words, ain't that easy
Let's keep it the simple way

When you hold me
The way you do
Just hold me
Help me through
You're the only one in this world
That makes me feel
The way I do

How can I thank you
For being here
Oh what a life
Together forever - together we'll be
I know, you know this feeling
I know you understand
Love is the reason that I'm living
Let's keep it the simple way

When you hold me
The way you do
Just hold me
Help me through
You're the only one in this world
That makes me feel
The way I do

No one can stop me from feeling this way
Just like the kiss
That you give me when I say
Do you realize
You're worth more than my life

You just hold me darling
Hold me now
(Hold me) The way you do it
(When you hold me) oh hold me
(The way you do)
You're the only one in this world
I'll always love you
For the way you are
