Erasure, Can't Help Falling In Love

Wise men say only fools rush in But I can't help falling in love with you Shall I stay? Would it be a sin? If I can't help falling in love with you

Like a river flows surely to the sea Darling so it goes Some things are meant to be

Take my hand, take my whole life too For I can't help falling in love with you

Like a river flows surely to the sea Darling so it goes Some things are meant to be

Take my hand, take my whole life too For I can't help falling in love with you For I can't help falling in love with you For I can't help falling in love with you
