

# Erasure, March On Down The Line

Lover out my way  
I'll stand up to anything  
Move on out this heartbeat  
The sun is over

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line

I've got lots to share  
About the way I feel inside  
Round and round this place  
Like a shotgun fire

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line

(A-ha let's play the game)

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line

Now the fight is won  
Stand attendant and tall again  
God is on our side  
Dance on up to heaven

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line

(A-ha let's play the game)

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line

A new day, a new way  
I'm coming out this time  
A new name, let's play the game  
And march on down the line
