

# Eric Burdon, Reapers Of Satan

Keep on thinking about tomorrow  
Keep on pleading your future  
Thinking of battle that nights bring (???)  
(???) your another way (???) will die

There's no future  
nor there's any way to hide

There's no way we will (???)  
There's no way your heaven in mercy  
Look in our eyes and know there's no way  
to (???)

There's no future  
nor there's any way to hide

You keep on saying you will win  
You keep on hoping that you will be free  
Thinking about those stupid (???)  
Save your nun (???) to die

There's no future  
nor there's any way to hide

There's no way (???)  
There's no way escaping  
Look in my pace and you'll find out  
That we are reapers of Satan

There's no future  
nor there's any way to hide  
We are the reapers of Satan  
nor there's no way to hide
