

Eric Carmen, Come Around & See Me

(wally bryson)

If you want me to wait forever
I will
And though you say you may love me never
You will

A love as strong as mine
You shouldn't be denied, my love
You'll end up by my side
Just wait and see me

If you want me to wait forever
I will
And though you say you may love me never
You will

Although I know you've tried
There's nowhere left to hide, my love
You'll end up by my side
Come around and see me

Don't ever think I'll be cruel to you
I'm a fool for you
Come around and see me

If you want me to wait forever
I will
And though you say you may love me never
You will

You know I've never lied
You'll never be denied, my love
You'll end up by my side
Come around and see me

Don't ever think I'll be cruel to you
I'm a fool for you
Come around and see me

If you want me to wait forever
I will
And though you say you may love me never
You will

You know I've never lied
You'll never be denied, my love
You'll end up by my side
Come, around and see me

Come around and see me, come around and see me
Come around and see me, come around and see me
