

Eric Carmen, Everytime I Make Love To You

(eric carmen/andy goldmark/steve kipner)

When this world gets a little crazy
There's a place here just for you
Come around and I'll be waiting
Baby, I'll chase away your blues

'cause no one else compares with you baby
No one makes me feel like you do
I wanna hear you whisper my name

Everytime I make love to you
Feels like the first time
Whoa-oh baby, from the very first touch
I need you, I need you, I want you so bad
It's all that my heart understands

Everytime I make love to you
Feels like the first kiss
Whoa-oh baby, never felt like this
No one could love me the way that you do
Everytime we make love

Let me kiss you soft and tender
Feel your heart beat next to mine
In your arms, baby, I surrender
I want to be with you all the time

'cause no one else compares with you baby
No one makes me feel like you do
Everytime

Everytime I make love to you
Feels like the first time
Whoa-oh baby, from the very first touch
I need you, I need you, I want you so bad
That's all that my heart understands

Everytime I make love to you
Feels like the first kiss
Whoa-oh baby, it never felt like this
'cause no one could love me the way that you do
Everytime we make love

Ooh baby, now my heart's on fire
I only want to show you my desire
And I'll do anything you want me to do

If you tell me your secrets
And show me your dreams
I'm the one who could make them come true
Everytime

Everytime I make love to you
Feels like the first time
Whoa-oh baby, from the very first touch
I need you, I need you, I want you so bad
It's all that my heart understands

Everytime I make love to you
Feels like the first kiss
Whoa-oh baby, it never felt like this

No one could love me the way that you do
No one could love me the way that you do
Baby, no one could love me the way that you do
Everytime we make love

Baby now my hearts on fire
I wanna show you my desire

Everytime we make love

Baby now my hearts on fire
I wanna show you my desire

Everytime we make love

Baby now my hearts on fire
I wanna show you my desire

Everytime we make love

Baby now my hearts on fire
I wanna show you my desire

Everytime we make love
