

Eric Carmen, Hands On You

(wally bryson/scott mccarl)

How I wish I had my hands on you
Always want to have my hands on you
Just can't wait to have my hands on you
Bring your friend, she's welcome too

Here we go, I got my hands on you
Take it slow, I got my hands on you
Down below, I got my hands on you
Where's your friend, I want her too
