

# Eric Carmen, Sleep With Me

(Eric Carmen)

Last night when I took you home  
I felt like dyin'  
'Cause it's been so long  
Since a woman made me feel like tryin'  
And I need you beside me  
To love and to guide me

So, sleep with me and be mine tonight  
I only wanna hold you in the mornin' light  
And show you just how good it all can be  
So if you want my love  
Then take my love  
And never set me free  
I need you so, oh darlin' sleep with me

Sometimes I believe our love  
Could last forever  
But when I'm here alone  
All I know is we should be together  
And I need you beside me  
To love and to guide me

So, sleep with me and be mine tonight  
I only wanna hold you in the mornin' light  
And show you just how good it all can be  
So if you want my love  
Then take my love  
And never set me free  
I need you so, oh darlin' sleep with me

I'm just tryin' to make you understand  
The things I feel for you  
Gonna love you every way I can  
Until you let me through  
Won'tcha let me through

So, sleep with me and be mine tonight  
I only wanna hold you in the mornin' light  
And show you just how good it all can be  
So if you want my love  
Then take my love  
And never set me free  
I need you so, oh darlin' sleep with me

Sleep with me and be mine tonight  
I only wanna hold you in the mornin' light  
So won't you sleep with me  
Baby, won't you sleep with me  
I need your lovin' baby, sleep with me  
I only want to hold you, won't you sleep with me
