

Eric Carmen, With You In My Life

(wally bryson)

With you in my life all I want to do is love
With you in my life you are all I'm thinking of
I hope you know I've never felt this way
And as long as you're true to me in my life you'll stay

I'll give you happiness; a little boy, a little girl
Another boy, another girl, and love

With you in my life all I want to do is love
With you in my life you are all I'm thinking of
I hope you know I've never felt this way
And as long as you're true to me in my life you'll stay
