

Eric Caspar, I've had enough

Ive had enough
You say you want to leave me tonight
Ive had enough
Dont worry Im not ready to fight
Cause its time Im really sure
You dont love me anymore
Leave me alone
I wont cry behind my door
Even if youre calling me to come back home.
Ive had enough enough enough
Enough
Ive had enough enough enough
Enough
Ive had enough
Girl I dont feel so guilty thats right
Ive had enough
Its really over, well cope alright
Its this time Im really sure
I dont need you anymore
Leave me alone
Please dont knock up on my door
Even if them calling you to come back home
Ive had enough enough enough
Enough
Ive had enough enough enough
Enough
Girl you make me feel so bad
Every time were gone to far
Ive had enough enough enough
Enough
Ive had enough enough enough
Enough
Girl you make me feel so bad
Every time were gone to far
It drive me crazy
You drive me crazy
It drive me crazy
Night and day
