

Eric Clapton, Got To Get Better In A Little While

(Eric Clapton)

Don't you know what's wrong with me?
I'm seeing things I don't want to see.
Sniffing things that ain't no good for me.
I'm going down fast, won't you say a prayer for me?

[Chorus:]

It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.
It's got to get better in a little while.

The sun's got to shine on my guitar someday.

Revolution all across the land.
Just like Sly, you got to take a stand.
Please don't hurt nobody, don't knock them down;
Give them a helping hand to get off the ground.

[Chorus]

[Bridge]

Still one thing that you can do;
Fall down on your knees and pray.
I know the Lord's gonna answer you.
Don't do it tomorrow, do it today.

[Chorus]
