

Eric Clapton, This Has Gotta Stop

This Has Gotta Stop
Enough is enough
I can't take this BG any longer
It's gone fa enough
If's gone far enough
If you wanna claim my soul
You'll have to come and break down this door

I knew the something was going on wrong
When you started laying down the low

I cna'r move my hands
I break out in sweat
I wanna cry
Can't take it anymore

This Has Gotta Stop
Enough is enough
I can't take this BG any longer
It's gone fa enough
If's gone far enough
If you wanna claim my soul
You'll have to come and break down this door

I've been around
Long long time
Seen it all
And i am used to being free

I know who i am
Try to do what's right
So lock me up
AND throw away the key

This Has Gotta Stop
Enough is enough
I can't take this BG any longer
It's gone fa enough
If's gone far enough
If you wanna claim my soul
You'll have to come and break down this door

Thinnin; of my kids
What's left for them
And then what's coming down the road

The light in the tunel
Could be the southbound train
Lord, please help them with their load

This Has Gotta Stop
Enough is enough
I can't take this BG any longer
It's gone fa enough
If's gone far enough
If you wanna claim my soul
You'll have to come and break down this door

This Has Gotta Stop
Enough is enough
I can't take this BG any longer
It's gone fa enough
If's gone far enough
If you wanna claim my soul

You'll have to come and break down this door
