

Eric Dill, Miss You Now

I try so hard to move forward
But I keep looking back
If I turned around I would find you
But what's the point in that?
Thought the place we built was invincible
Or so I believed
But the sky grew dark and the sun burned out
So suddenly
Oh your eyes have changed
But the memories remain
Will I see you again? Will we be there again?
I believe it's fair to say
That I'm not over you
Days will come and days will go
But I'm gonna miss you just like I miss
The way we used to dance together
Puddles in the rain
The fairy tales got washed away
But I'm gonna miss you just like I miss you now
I want so much just to hold you
But it's not the same
I am do myself wishing for this
But fear is all in vain
I think of dreams about you
Before we met
Put your hand in mine
Hold you one last time
So we'll never forget
Oh your eyes have changed
But the memories remain
Could we feel it again?
Could we be there again?
I believe it's fair to say
That I'm not over you
Days will come and days will go
But I'm gonna miss you just like I miss
The way we used to dance together
Puddles in the rain
The fairy tales got washed away
But I'm gonna mis syou just like I miss you
Oh
You've given me everything and more
Ohhh
Ohhh
You've given me everything and more
Ohhh
You've given me everything and more
I believe it's fair to say
That I'm not over you
Days will come and days will go
But I'm gonna miss you just like I miss
The way we used to dance together
Puddles in the rain
The fairy tales got washed away
But I'm gonna miss you just like I miss you now
