

Eric Johnson, Off My Mind

Misery in my life
You caused the heartbreak deep down in my soul
Used to be a part of me
But now the table's turned and this I know
Everytime I think of you
It's over, under, sideways, down
No matter what I try to do
I try to get you off my mind
Off my mind
I get, get, get you off my mind
Emotional solitude
A victim of the damage that you do
I can feel the magnitude
Confusion, the keeps holding me to you
