

# Erick Sermon, Back 2 The Party (feat. Salt-N-Pep

Tell me now

Rock Walla  
Eric Surman  
Salt and pepper  
We taking it back yeah  
Way back  
Blck party  
Back in time  
Jam y'all know what I'm talking about huh

Relax your mind set your conscience free  
You're not rocking to The Sounds of S and P  
Back to party  
Back to the fever  
Back to the roof top  
Show stopping money  
We pulling up in the new drop  
Doing the dougie to the bar for a few shots  
World going up again parties on every block  
Taking it back and you know we ready  
Summertime hot night sounds of the city

No more lockdown throw the confetti time to flex  
Yeah I'm petty  
Dance bounce rollerskate and  
Please grow up  
Y'all too old to hate

I control my fate  
Cut my own check  
Yeah I control my cack  
Back to the party

Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back

Big Tap respect is in order  
Take you back to the days when the Latin quarters  
Used to pop off the whole city was lit  
Don P filled my glass  
Not cris  
The DJ's only spinning the hot shit

SNP still continue to drop hits  
Ladies say ouuuuu  
Fellas say hooooo  
Now we're here 20-24  
Let's go  
Hands in the air  
It's a brand new year

Ain't you tired of the tears and living and fear  
I promise you we about to go up and stay there  
If you come to party let me hear you say hell yeah  
From the dance floor to the lobby  
We gon' take it back to the party  
Yeah yeah we going to take it back

Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back  
When people partied  
Taking it back  
Taking it back  
Taking it back
