

# Erik Faber, Desire

I told her to stay awake  
didn't know the game she would play  
the path she cut for me  
didn't know how it would be

oh, am I weary  
is it only in my head  
oh, how I wish that she would stay

she, she's taking me higher  
my only desire  
she's everything I have  
she, she hurts me like fire  
but I walk the wire  
she's everything I have

I wonder was I too late  
trying to set everything straight  
I wonder what would I do  
trying to put my mind off you

oh, am I weary  
is it only in my head  
oh, how I wish that she would stay

she, she's taking me higher  
my only desire  
she's everything I have  
she, she hurts me like fire  
but I walk the wire  
she's everything I have

oh am I weary  
is it only in my head

how I wish  
how I wish

she, she's taking me higher  
my only desire  
she's everything I have  
she, she hurts me like fire  
but I walk the wire  
she's everything I have

I have
