

Erik Segerstedt, Saturday Night

So long
I have been so alone
Since you went away
My life has changed
You told me
Told me that I am not
The one you want to hold
Near your heart
But how can it be so
You know yet at all
Always remember
When we been in love
Nothing kept us apart
Oh saturday night
My heart was running in to love at first sight
You turn me round you made me weaker
Oh what a saturday night
Whoh oh oh
What a saturday night
Walk together and I held you so tight
You told me this would last forever
Oh what a saturday night
The time came
The time for me to realise
I had to let you go
But my heart said no
Yeah yeah yeah
But how can it be so
You know yet at all
Always remember
When we been in love
Nothing kept us apart
Oh saturday night
My heart was running in to love at first sight
You turn me round you made me weaker
Oh what a saturday night
Whoh oh oh
What a saturday night
Walk together and I held you so tight
You said that this would last forever
Oh what a saturday night
How love can turn you round and round
But I know some day
Love will find a way
Ohhh saturday night
My heart was running in to love at first sight
You turn me round you made me weaker
Oh what a saturday night
Whoh oh oh
What a saturday night
Walk together and I held you so tight
You said that this would last forever
Oh what a saturday night
Ohhh...
