

Erin Cruise, Cold Shower

Turn it on
Let it pour
Ice cold
I can't take it anymore
So this is love
So this is love
chorus:
There's fire burnin' in my heart
When you're close
That's when it starts
There's flame where there once was a spark
Cold shower
I'm heatin' up
Can't cool down
This only happens when you're around
Turn on the water
'Cause I think I should drown
Cold shower
The closer you get, you fan the fire
Burnin' me up with a wild desire
Your gentle touch, the move of your hand
You gotta way to make me feel
That's like no other man
chorus
I'm startin' to melt, you're makin' me burn
Emotions and lust, they twist and they turn
I'm over the edge, I'm out of control
Feel the rush of heated passion
From deep inside my soul
Turn it on
Let it pour
Ice cold
I'm burnin' up
I can't take it anymore
So this is love
So this is love
(bridge of sung notes)
chorus
chorus to fade
