

Ernest Tubb, Do It Now

If you ever gonna kiss me then do it now
If you ever gonna want me then want me now
Let's do a little spoonin' wind upon a honeymoonin'
And if you ever gonna love me then do it now
Don' wait until my hair turns grey show me that you care
I might be too old to appreciate the love we now could share
If you ever gonna hold me then do it now
If you ever gonna squeeze me then squeeze me now
Let's find a preacher man let's live in a lover's land
If you ever gonna love me then do it now
[guitar]
Don' wait until my hair turns grey show me that you care
I might be too old to appreciate the love we now could share
If you ever gonna hug me then do it now
If you ever gonna need me then need me now
Let's walk in the moonlight let's live in a paradise
If you ever gonna love me then do it now
