

# Ernest Tubb, I'll Get Along Somehow

Many months have come and gone since you called me on the phone  
To tell me that we were through  
You thought it break my heart but I fooled you from the start  
Cause I never did trust you  
What you thought you were mighty wise to turn around with other guys  
And still saying you were mine  
While you had one or two I had a dozen more than you so you got to fooling that time  
Oh let it rain and let it snow I don't care oh no no no I'll never worry now  
You're the one that wasn't fair wasn't tame to play square I'll get along somehow  
So you'll keep going your way I'll keep traveling mine  
And at the end you'll need a friend you'll be the one to sit and pine  
So let it rain and let it snow I don't care oh no no no I'll never worry now  
You're the one that wasn't fair wasn't tame to play square I'll get along somehow  
[ piano - guitar ]  
So you'll keep going your way...
