

Ernest Tubb, I'm Living In Sunshine

You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you
Oh how I've missed you since you've been gone lonely nights and dark clouds all day long
Standin' by my window watchin' it rain when I pop the rainbow and in you came
You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you
You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you
[steel]
I get so lonely while you are gone and while I'm waiting it seems so long
You take my sunshine away with you but when you come back my skies turn blue
You bring me sunshine beautiful sunshine I'm living in sunshine when I'm with you
I'm living in sunshine when I'm with you
