

Ernest Tubb, I Wonder Why I Worry Over You

Dear you're not worth to what it takes to mention your name

I wonder why I worry over you

The way you kicked my love around is such a crime and shame

I wonder why I worry over you

Friends with good intentions all tell me to get smart

And run away this very day before you break my heart

You'll never change your wicked ways you'll always be the same

I wonder why I worry over you

[guitar]

Even when you know you're wrong I still get the blame

I wonder why I worry over you

If there's an art in breakin' hearts you could start a hall of fame

I wonder why I worry over you

If I walk out tomorrow it wouldn't bother you

You've got another waitin' now to see just what I do

And you're not worth to what it takes to mention your name

I wonder why I worry over you
