

# Ernest Tubb, One More Memory

Just give me one more memory that's all I ask of you  
To see you once again would mean a lot to me  
We'll pretend I'm just a friend that you once knew  
So please be there and give me one more memory

Now hello darling I'm just passing through this way  
Thought I'd call you up I haven't long to stay  
If you'll meet me in our same old meetin' place  
I promise you that I won't speak of yesterdays  
Just give me one more memory...

[ guitar ]

Now I respect the choice you made so long ago  
And if you're happy dear that's all I need to know  
I'm not here to cause you any misery  
But if I could see you I'd have one more memory  
Just give me one more memory...  
So please be there and give me one more memory
