

# Esham, Night Vision

(Esham Talking)

Deadly shadows, so uh  
You afraid of the dark?  
Deadly shadows, in the dark in the dark  
In the dark  
Shadows, shadows,  
Gotta watch yaself out here boy

I be the icon, auto-bomb named Esham  
Another victim wanna get some infrared.com  
Who's your idle suicidal receiptal never take my title  
Cuz what I know, crows never see like a shadow  
In a battle, my head move like a snake and my tail rattle  
All those with beef get mutalated like dead cattle  
Finally hearing true confessions and murder lessons  
I keep the Smith n Wesson for the tratior steady stressin  
Life's a bitch n when I spit internet watch the glitch  
I'm deadly as the virus that you don't wanna get  
Wicked shit is all I hear  
New year I move clear  
Buried alive in a pinebox is my deepest fear  
Solar systems should be hidden  
Like green leaves n green trees  
Don't make me walk the waters across the seven seas  
The serpent and the rainbow  
The cocaine flow  
The forbidden fruit telling you not to bite or i'll sheen

(Chorus 4x, repeats I'll sheen 3 times)

Wicked entities with ya  
Don't let the sun hit ya  
In ya head you might picture  
How the shadows gonna get ya

When doves fly thugs cry  
So you can't deny  
When tears fall from your eyes  
Up your soul to the sky  
The fallen angel u-n-h-o-l-y  
Hell I be hellavul hellifeid  
Cuz Detroit be suicide  
In the darkness  
Straight out the abiss  
Spark the cannabis  
No mercy for the weakmind not understanding this  
Hardcore, or your'e gonna die  
Cuz I got the body armor I declare war for  
the punk mutherfuckers  
Biting every lyric  
Full clips of hollow tips to release your holy spirt  
Your unoriginal, artafical  
Flavor tampering  
If ya style was strach n sniff it would smell like dirty pampers  
Cuz you got clap  
You heard a round of applause  
Deadly shadows in the back when you break rap laws

(Chorus 4x, repeats when you break rap laws 3x)
