# Esham, No War

#### [Chorus]

You wanna party at the club? (It's a war going on out there) You wanna roll around on dubs? (Smell the anthrax in the air) You wanna hate it all, no love? (Full-fueled flight on US Air)

Just wait and watch out for the scuds (Nine-eleven, I was there)

Hut, two, three, four! - No War!

## [Esham]

This boy is not a soldier, somebody should'a told ya I'm striking like a cobra, the rap game now is over I shot up homeboy's Rover, with fifty shots to fold you You screamin for Jehovah, you wish your momma hold you Just wanna be a roller, money like Tommy Matola From slanging yoca cola, started off by moving boulders The world is getting colder, shake them haters off my shoulders I say I'm 730, they tell me I'm bi-polar You go tell Uncle Sam "No war in Afghanistan" Or Iraq, or Iran, many people dying man Shots go off in Bethleham even in Jerusalem Christians killing Mus-a-lims Tell me what you doing man?

### [Chorus]

#### [Esham]

We caught up in the struggle, sit back watch the water bubble Lock us up for drugs you smuggle, Detroit hustlers paying double Now the whole country's in trouble, gas prices sky high People scared to fly on planes; why Aaliyah have to die? Terrorized, civilized, people livin evil lives You can see it in their eyes, fire falling from the skies Nowhere to run and hide, everybody's gonna die You can duct tape all your windows but the smell is still inside

#### [Chorus]

#### [Jumpsteady]

We were up there eight months

We were living in the desert drinking hot-ass water

one hundred and forty degree weather

wondering whether we were going to live or die, day to day, man

It was real stressful over there

So, anyway, I had this boy, right?

His name was Rennisson

Basicly what happened with him is:

he got out of the army before the Gulf War kicked off

and uhh.. you know everybody thought he was safe, but he joined the reserves Next thing we know, we hear he's right over there with us but in another unit

So, you know, we're like

" Aw hell yeah, Rennisson's here too, man. I hope he's alright. "

Next thing we know BAM! He's fucking dead, man

The scud missiles came and took him and his boys out

Next thing you know, we're all trippin like &guot;Oh shit!&guot;

That's when it struck us, man

This shit is for real

We can die at any time, man
